Soft Skills

- **Teamwork**
- **Effective Communication**
- **Adaptability**
- **Responsibility**
- **Punctuality**
- **Organization**
- **Time Management**
- **Attention to Detail**
- **Self-Directed Learning**

Analytical Skills

- **Problem Solving**
- **Technological Curiosity**
- **Logical Thinking**

Languages

- Spanish (Native)
- English B2

Education

Higher Technician in Multiplatform Application Development, ILERNA
2024-2026 (Jerez de la Frontera, Spain)

Hight School Diploma in Science
U. E. José Gregoria Bastidas
Graduated in 2012 (Lara, Venezuela)

Technical Skills

Programming Languages:

- Java
- JavaScript
- PHP
- C#

Web:

- HTML
- CSS

Database:

- MySQL
- SQLite
- MongoDB
- MariaDB

Tools:

- Git
- GitHub
- IntelliJ IDEA
- Visual Studio Code
- Android Studio

Additional Training

Ultimate JavaScript: From Zero to Expert Developer (Udemy, 2024)

Java University - From Zero to Expert (Udemy, 2024**)**

Modern JavaScript (Udemy, 2025**)**

Programming Logic (Udemy, 2024**)**

SQL - Complete Database Course (Udemy, 2025**)**

Complete Web Development with HTML5, CSS3, JavaScript, AJAX, PHP and MySQL (Udemy, 2025**)**

Projects

[Veterinary Management System]
(Node.js - React + MongoDB)
Web application for managing patients, appointments, and services, using Node.js on the server side and React on the client side.

Includes CRUD operations with a MongoDB database.

Movie Trailer Web Platform (YouTube-style)
(Node.js - React + SQL)
Full-stack web application for managing movie trailers, featuring **user authentication** and **password encryption**. Features include user registration/login, video uploads, genre assignment, video playback, and a user dashboard.
Stack: React (UI), Node.js (REST API), SQL (data persistence).

Auto Parts Inventory Management System (Graduation Project)
(Java + JavaFX + SQLite)
Desktop application featuring user authentication, role-based access and CRUD operations for auto parts management. Includes product, stock and pricing management, as well as database search functionality.

Stack: Java, JavaFX (user interface), SQLite (database)
